PROFESSIONAL EXPERIENCE

Flagright, *Summer Intern*, Berlin, GER

May 2024 – Aug 2024

- Y Combinator '22 startup. Collaborated closely with founders to design a Business Continuity Plan, document SOC-2 processes, partner with AI vendors for RFP and RFI responses, and create whitepapers on the future impact of generative AI on financial crime and compliance. Played a key role in an onsite, customer-facing engagement in Kuala Lumpur, deploying Flagright's sanctions screening solution for Permodalan Nasional Berhad, ensuring compliance with regulatory requirements.

FinTech Global, *Convention Coordinator*, New York City, NYC

Sep 2023, Sep 2024

- Convention coordinator at RegTech Global '23, InsureTech Global '23 and RegTech Global '23. Provided keynote speaker, panel and roundtable discussion logistical support. Served stage introduction and mic. duties and facilitated networking sessions.

Iridium Business Solutions, *Technology Intern*, Cape Town, SA

May 2023 – July 2023

- Built user-facing analytics solution on AWS CloudFront/S3 utilizing React on dynamoDB. Leveraged Lambda, AWS API Gateways, EventBridge, and Cognito. Led client-facing design sprints and utilized Agile storyboards.

RESEARCH AND ACADEMIC EXPERIENCE

Economic Sanctions Filtering with AI, *Joseph Wharton Scholars Research*, Philadelphia, PA

Oct 2022 - Present/Ongoing

- Prototyping a product focused on scraping free-form data rapidly to identify sanctioned and politically exposed person transactions.
- Leveraging advanced AI technologies, the system is designed to identify and promptly alert at-risk transactions, providing valuable insights for enhanced risk management and compliance measures. Development on MongoDB, Express, and Node.js

Twitter Algorithmic Trading, *Independent Research*, Princeton, NJ

Aug 2019 – June 2021

- Analyzed Twitter data and forecast stock price movements, demonstrating proficiency in data analysis and modeling. Applied Python and Tiingo API. Combined data scraping and analytics using predictive AI models to uncover insights and trends from large datasets.

LEADERSHIP & CAMPUS ACTIVITIES

Wharton Equity, Diversity, and Inclusion Group, *Board Member*, Philadelphia, PA

Oct 2022 – Present

- Led initiative to deliver insights and findings on DEI within The Wharton School to the Vice Dean and Chief Diversity Officer.
- Designed & delivered a Qualtrics-based belonging survey for Wharton undergraduates, capturing valuable DEI insights.
- Organized town hall discussions & collaborated with affinity groups to increase engagement in DEI initiatives among undergraduates.

Wharton Investment & Trading Group, *Quant Strategies Analyst (QIS)*, Philadelphia, PA

Oct 2022 – Present

- Developed quantitative and system-driven trading strategies, emphasizing signal research and portfolio optimization.
- Modeled the Arbitrage Pricing Theory (APT) using historical financial data to identify systematic risk factors in mock portfolios.

Wharton Undergraduate Finance Club, *Case Team*, Philadelphia, PA

Oct 2022 – Present

- Produce comprehensive stock pitches and income statements. Practice in financial analysis and forecasting techniques.
- Develop comprehensive Discounted Cash Flow (DCF) analyses and compelling revenue models for our assigned company/startups.
